PROJECTS

CARA – E-Commerce Website:

- Developed a fully functional e-commerce site with product listings, cart functionality, and responsive design. Integrated JavaScript for interactivity.

Solar System Web Project

- Created an interactive model of the solar system using HTML, CSS animations, and basic JavaScript. Educational project aimed at learning DOM and layout techniques.

Travel Dream – Travel Agency Website

- Built a travel agency site with homepage carousel, destination listings, booking form, and testimonial sections. Emphasized responsive layout and usability.
